(Senior) Java Backend Developer - Logistics Technology (m/f/d)

We are looking for passionate Software Developers to join our team in Berlin. You will have the opportunity to play a leading part in designing, and developing the whole logistics part of the company!

Berlin | Full time

What you tell your friends when they ask you what you dou2026

"Our team is responsible for providing restaurants with delivery service. Areas like HR, disposition and delivery depend on us to develop and maintain their web and mobile applications. We have no dependencies, we work closely together with our team members and we like to think of our team as a second family."

Your Profile

- You love team collaboration and feel comfortable working in pair programming
- You have experience writing Microservices
- You are familiar with Spring, Kafka/Rabbit or similar and SQL/NoSQL
- You have interest in any of the following: Reactive Programming, Domain Driven Design, Event Driven Architecture
- You are familiar with continuous deployment using AWS or similar platforms
- You believe that ideas coming from a team are more powerful than from a single person
- You have at least 3+ years of experience

The Position

- Build systems and algorithms that will be used by millions of customers in Europe and some cities in Asia
- Work with challenging topics inside the logistic area (routing, shiftplanning, scheduling)
- Refine and grow your expertise in areas like Continuous Integration, Microservices, DDD, Event Driven Architectures, RESTful APIs and other related key topics
- Help to improve our development practices inside our backend community

Our offer

- Good work/life balance
- Family-first mentality
- Short decision-making processes and room for initiative
- Awesome (global) team events like the summer party, skiing trip and more!
- Table football, billiard and Playstation in the kitchen
- Contribution to your travel cost with the amount of the BVG monthly abonnement
- An attractive location with roof terrace close to Potsdamer Platz
- Workshops, conferences and training seminars to support our growing team
- Inhouse Meetups
- Inhouse German language courses
